MCHM, PPH, DPPH frag_patterns.pdf

All,

See attached. I am forwarding data on behalf of REIC.

Thanks,

Lieutenant colonel Grant:

Ex. 6 - Personal Privacy asked me to send these GCMS fragmentation pattern scans for the PPH to you. He figured it would be easier to email them to you and then allow you to send them to the interested parties from this morning's conference call. The draft SOP should be emailed to you sometime tomorrow. If you need anything else, please be sure to let Ray or Dr. Haile know.

Description

Conference Call Information:

Dial In Ex. 6 - Personal Privacy
Meetin Ex. 6 - Personal Privacy

All,

REIC Laboratory reports they can detect PPh/DiPPH at less than 10ppb with 20 ml of sample. We are providing them with historic samples from 10-13 Jan so they can look back at those samples for PPh/DiPPH. They are reporting on the current samples at 1.04 ppb level. (Correct me if I am wrong) Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy is planning on sending out conference call regarding PPh for 10:00 a.m., Monday 27 Jan. We appreciate everyone's assistance with this incident.

Thanks,
Greg

Subject: PPH Discussion Group

This is the entire PPH discussion group as I understand it right now. REIC labs is working overnight attempting to lower the 1.2 ppm detection limit achieved by MATRIC.

Once we here from REIC in the morning we will set up another conference call for the group.

Regards,
